EDUCATION

Frontend Developer
Nbi Handelsakademin
Gothenburg | Aug 2023 - Present

As a frontend development student, I am learning to create responsive, user-friendly web applications using technologies like HTML, CSS, JavaScript, and TypeScript. I work with React for dynamic interfaces and use tools like Git for version control, Figma for UI design, and Node.js for backend integration. The program emphasizes good code structure, teamwork, and user-centered solutions.

Linda Amnell

FRONTEND DEVELOPER

PROFESSIONELL PROFILE

Ambitious and goal-oriented aspiring frontend developer with diverse work experience. Through previous roles in fast food and warehouse environments, I have learned to handle rapid changes and work efficiently both independently and in teams. I am currently studying frontend development and look forward to applying my technical skills and creativity to build user-friendly solutions. I'm excited to contribute to future projects within software development.

Technical Skills

- JavaScript
- Git
- HTML
- Cypress
- CSS
- Jest
- React
- Firestore
- React Native
- Figma
- REST API
- MongoDB
- TypeScript
- Material UI
- Node.js
- Express

Frontend Developer, NBI Handelsakademin

- HTML and CSS
- Basic JavaScript
- Graphic Tools
- UX and Usability
- Agile Methods
- Advanced JavaScript
- Testing
- Fullstack Development

Languages

Swedish
English – Professional, both spoken and written

PROJECTS

Play Toys – E-commerce Website React, Firestore

Nbi handelsakademin | Apr 2024

Developed a responsive e-commerce site in React with React Router and Zustand. Customers could manage their cart and filter products, while administrators could manage content through login. Used Firestore for storage and published via GitHub Pages. Focused on SPA, state management, and user-friendliness.

[GitHub](#)

Group Project – Restaurant App React

Nbi handelsakademin | Apr 2024

Built an interactive restaurant web app as part of a group using React, Vite, Zustand, and React Router. The app managed menu viewing, orders, and login functionality. I contributed to UI design, forms, API integration, and handling user data. The project followed Scrum methodology, with daily stand-ups, user stories, and testing. Deployed via GitHub Pages

[GitHub](#)

Go Ghibli – Mini Project TypeScript + React

Nbi handelsakademin | Oct 2024

Built a frontend application for Studio Ghibli movies using React and TypeScript. Fetched and displayed movie data via an API, with features for searching, showing movie details, and the ability to favorite movies. Implemented sorting by release year and validation of API data using Joi. Focused on user interactivity and responsive design.

[GitHub](#)

Chappy – Fullstack Application (MERN Stack)

Nbi handelsakademin | Oct 2024

Built a REST API for the chat application Chappy using the MERN stack (MongoDB, Express, React, Node.js). Implemented JWT authentication, with messaging in open/locked channels and direct messages (DMs). Used React and React Router for the frontend, and Express for the backend. The project included security with Joi, continuous code reviews, and agile methodologies.

WORK EXPERIENCE

Internship

Etraveli Group | Mar 2024 - Jun 2025

Working with frontend development in the company's Partner Portal using React and TypeScript. Gaining in-depth practical experience with modern technologies and agile teamwork in a professional environment.

Internship

Rapid Images | Nov 2024 - Jan 2025

Participated in the "Upplysa" project for IKEA using React and TypeScript. Responsible for rebuilding the company's internal admin page. Gained practical experience in frontend architecture, UI development, and collaboration within a professional team.

Temporary Staff

Blomsterlandet | Apr 2024 - present

Developed my customer service skills in a fast-paced retail environment. Experienced in customer interaction, cashier duties, inventory management, and taking responsibility for maintaining an organized store.

Warehouse Associate

Jollyroom Gothenburg | Nov 2016 - Aug 2023

Worked with the company's autostore warehouse system, responsible for efficient picking, packing, and inbound processing of goods. Also responsible for handling discrepancies and errors, which required attention to detail, problem-solving skills, and communication with other departments

Restaurant Staff / Supervisor

Burger King Stenungsund | Aug 2009 - Nov 2016

Worked in both the kitchen and cashier in a fast-paced restaurant environment. Gradually took on more responsibility and was a team leader for the last two years, responsible for managing shifts, handling orders, and coordinating the team. Developed strong skills in staying organized under pressure.
